

Nationwide® smart home

Protect your home from water damage

Get peace of mind and save with early detection.

Every year, **water damage costs thousands** in repairs that could be avoided or minimized with preventative measures.

28.6%

Percentage of insurance claims from **water damage***

\$11,098

Average cost of **water damage-related claims***

Any of the following can result in water damage:

Burst pipes

Appliance or roof leaks

Overflowing bathtubs

Water heater leaks

Sump pump failures

Use this checklist to help prevent water damage in your home:

Conduct regular inspections

Check appliances, ceilings and basement walls for leaks and look for signs of moisture such as mold or mildew.

Prevent roof leaks

Clean out your gutters regularly and repair loose shingles.

Protect your pipes

Increase insulation or air circulation around your pipes to prevent freezing.

Know how to shut off water

If a big leak or rupture happens, you need to shut off your water quickly. There is typically a main shutoff for the entire house. Every minute counts!

Monitor remotely

Install a smart home system to keep an eye on temperatures and detect leaks early.

Monitor and save with Nationwide's smart home program:

- ✓ Get a Notion smart home monitoring kit for **50% off** through us
- ✓ **Easily place sensors** around your home
- ✓ **Monitor from anywhere** with the Notion app
- ✓ Receive **real-time alerts** when something is happening
- ✓ **Start saving** on your insurance policy right away

Taking preventative measures now is the best way to avoid losses caused by water damage.

Review your insurance policy today to ensure you have the coverage you need.

At Nationwide, we go the extra mile to help you reduce risk and save money on your insurance. To learn more about how our smart home program can help protect your property from water damage, contact your agent or visit nationwide.com/getsmarthome.

*28.6% is the weighted average for 2015 - 2019; \$11,000 is the weighted average of loss severity for 2015 - 2019

Currently available in AL, AZ, CA, CT, DC, IA, IL, MS, OH, TX, VA, VT, WA
Availability varies by state, coverage selections and rating factors. Program criteria differ in Washington and California. The discount for smart home participation will be discontinued if an eligible smart home monitoring system is not purchased within 55 days of enrollment. The smart home monitoring system and related support will be provided by Notion, the third-party system provider. Nationwide is not responsible for the system or any home monitoring.
