Our grain bin safety mission:

Zero lives lost

Our goal is to raise awareness of the hazards of working around grain bins and grain-related structures, and to help reduce the number of preventable injuries and deaths associated with grain-handling and storage.

Learn more. Do more. Save more lives.

By becoming a Grain Bin Safety Week sponsor, your donation can help fire departments and first responders be better equipped to save lives.

Many hazards can come from working around grain bins and grain-related structures.

573

documented entrapments between 2007-2023¹

56

years — Average age of grain entrapment victim¹

49%

of confined space accidents in 2023 were grain entrapments¹

4

seconds — Adults can sink knee deep in flowing grain and cannot free themselves²

20

seconds — An adult can become completely buried with little hope for survival²

100%

of grain bin entrapments are preventable

Many fire departments lack the specialized rescue techniques and equipment necessary for a successful grain bin rescue. Through your generosity, not only will you help your local community and fire department, you can also help save lives.

2014

first year of Grain Bin Safety Week

13

lives saved with donated rescue tubes since inception

2,636+

earned media stories since 2017 (broadcast, online and print news publications)

32

states where grain rescue tubes and training have been awarded from 2014-2024

390

grain rescue tubes awarded from 2014-2024

\$1.7 million

raised from 2014-2024 to fund grain rescue tubes and specialized training

12,000+

fire department nominations since inception
